Company Profile

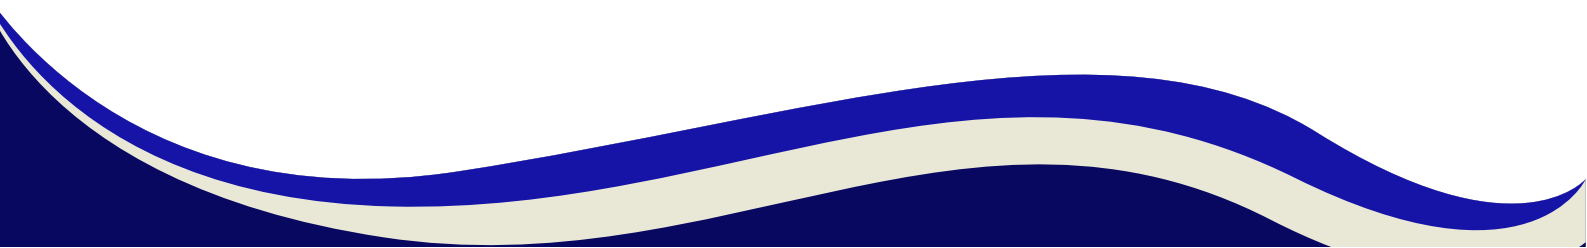

ABOUT US

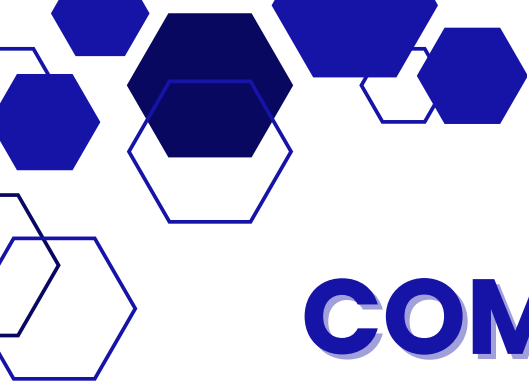

VISION

To become an outstanding corporate partner in the seafood supply chain in Malaysia and internationally.

MISSION

To supply finest and freshest local seafood products sourced from sustainable seafood stock by adopting the best hygienic processing practices in order to be both relevant and responsible in the local and global seafood industry.

COMPANY PROFILE

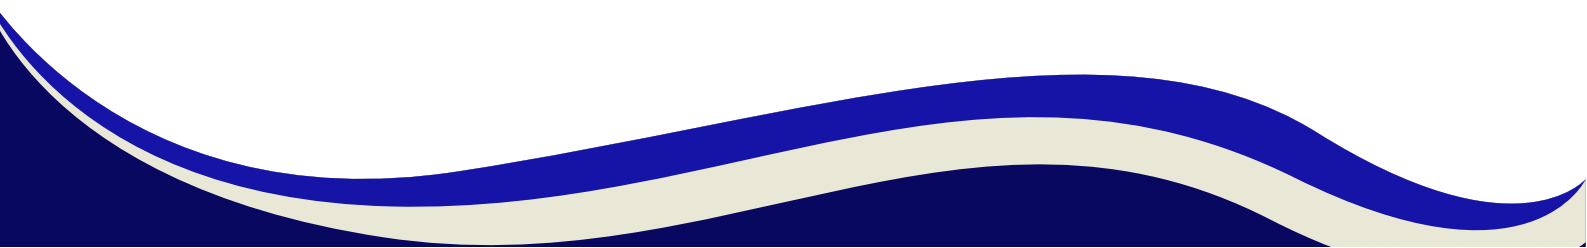

Widegrowth Marine Products Sdn. Bhd. is in the business of processing and packaging quality seafood for both local and international markets - 30% and 70% proportionally.

Our founder has over 50 years of experiences in the seafood industry. He leads a young and dynamic team of executives in the company.

Most of our buyers got to know the company by word-of-mouth from our local fisheries authorities. We are proud to have this long-term business relationship with these supportive buyers from different countries.

Our seafood-processing factory is located in the east of Sabah (formerly known as North Borneo), Malaysia. We process seafood, mainly prawns currently - both wild caught and cultured.

Most of our raw materials (seafood) are sourced from local fishermen. We also own a fleet of trawlers to help ensure the constant supply of fresh seafood.

CERTIFICATION AWARDS

Food Safety Program Certification -

"Hygiene in our Hands"

HACCP

HACCP certification is an international standard defining the requirements for effective control of food safety. It is built around seven principles: Conduct Hazard Analysis of biological, chemical or physical food hazards. Determine critical control points.

Malaysia MeSTI certification

MeSTI is a food safety program undertaken by the *Malaysia Ministry of Health*. The objective of MeSTI is to put in place a system for the maintenance of food hygiene and process control. On July 2015, the company received its MeSIT certification Reg No. FSSM091100034-01.

HALAL

HALAL certification is only awarded to businesses and organizations that meet the criteria of HALAL from the *Department of Islamic Development Malaysia*. The company has been registered under the reference number of JAKIM / (S) / (22.00) / 492/2/1 038-09 / 2014. More than 29 types of its product consisting of seafood and meats have been registered as HALAL compliant.

CERTIFICATION AWARDS

Food Sustainability Program Certification - **“Catch for Tomorrow Program”**

Chain of Custody Certification - Awarded by Marine Stewardship Council (MSC) and Aquaculture Stewardship Council (ASC)

The MSC Chain of Custody Standard is a traceability and segregation standard that is applicable to the full supply chain from a certified fishery (MSC) or farm (ASC) to the final sale. In March 2017, the company received the award for MSC CoC Certificate No. MSC – C - 55781 and ASC CoC Certificate No. ASC – C - 01382.

Friend of the Sea certification program

This program is about promoting sustainable fishing practices. Such a program hopes to contribute to the health of the oceans and in return to sustain the fishing industry for the next generation. Currently, our fleet of commercial fishing vessels is undergoing audit with a 3rd party consultant on this meaningful program, so that our wild marine fishery can be certified as sustainably sourced.

CERTIFICATION AWARDS

Others Awards -

"Strive for Excellent Production"

Sin Chew Business Excellence Awards 2016

This Award is an authentic testimony and recognition of the business excellence in all key business management disciplines which form the strategic part of the enterprise growth and sustainability in an ever-changing environment. The company was nominated for Lifetime Excellence Achievement Award.

OUR PRODUCTS

Local Fine Produce

“Fruits of the Sea”

Due to the strategic location of Sandakan, buyers can source a wide variety of seafood from us. In addition to processed sea prawn and cultured prawn as our main produce; we also process other types of seafood such as fish - both pelagic and demersal, cuttlefish, slipper lobsters, scallops, and crabs based on the regular buyers demand.

Our seafood-processing factory is located in Sandakan, a coastal city and "seafood capital", located in the east of Sabah (formerly known as North Borneo), Malaysia.
